

office area DKV

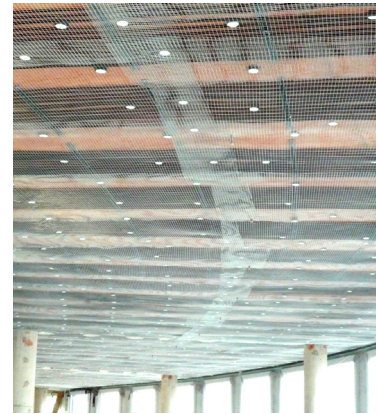

TYPE OF APPLICATION: plaster reinforcement

LOCATION: Cologne/Germany

DATE OF CONSTRUCTION: april 2010

ENGINEER/ARCHITECT:

CONTRACTOR: Cesmo Berlin

reinforcement for cooling/heating ceilings with dowels type AD

Description of the project

All ceilings were executed with heating/cooling tubes. The tubes had to be reinforced with Armanet® that plaster, tubes and subground ceiling could get a strong connection to avoid cracks coming from temperature differences.

office area in Köln/Germany with 6 floors
